For **books**, record:

- The author's or editor's name (or names)
- The year the book was published
- The title of the book
- If it is an edition other than the first
- The city the book was published in
- The name of the publisher

For **journal articles** record:

- The author's name or names
- The year in which the journal was published
- The title of the article
- The title of the journal
- The page number/s of the article in the journal
- As much other information as you can find about the journal, for example the volume and issue numbers

For **electronic resources**, try to collect the information on the left if it is available, but also record:

- The date you accessed the source
- The electronic address or email
- The type of electronic resource (email, discussion forum, WWW page, etc)

In addition to these details, when you are taking notes, if you copy direct quotations or if you put the author's ideas in your own words, write down the page numbers you got the information from.
